

**YOU ARE INVITED TO
UNGARIE CENTRAL SCHOOL'S
PERFORMANCE
NIGHT**

Thursday 17th September

6.45 for 7pm start

Ungarie Memorial Hall

Don't be late!

Why are these judges arguing? Who upset the kiddies with recorders? What on earth are The Quadrupeds???

Join us at the Memorial Hall on Thursday the 17th of September and you may (or may not) find the answers to these questions, but we hope you'll have a lot of fun!

Students and staff have been working hard to polish their items for Performance Night, which includes a whole-school play ("The Show Must Go On") in the first half, with Emma's Awesome Dancers and Band Items in the second half, following a short interval. Don't miss it!

Top: Jack Wason (aka Gordon Greasebucket) and fellow judges Chloe Brewer and Danielle Cattle have a difference of opinion; Hayey Wallace, Zoe McRae and Ella Payne with their recorders; and The Quadrupeds (Kai Davies, Damian Batty, Margaret Izzard and Seth McCubbin) ready to perform!

Tyler Crofts

MATHS with Mrs Parkinson

In Kindergarten maths groups we have been learning about 3D shapes. We made party hats using cones, and we collected different sized cylinders and spheres.

Dylan Carroll and
Madison Vinecombe

K/1 SCIENCE

In Science our topic is Schoolyard Safari. We collected and examined earthworms in our specimen boxes. After a close look we discovered that earthworms have a saddle, head and segments! We also looked at the worm farm and discussed the best food for the worms.

BOOK WEEK EXCURSION by Caitlin Rossiter
Last Thursday, K/1 went on a bus to the Bland Shire Library for Book Week in West Wylaong. At the Library, we read two books. One was called "Scary Night." The other was called "Snail and Turtle are

Friends." When we got out of the Library we went to Barnado Park for lunch and we had hot chips and a play. On the way back to school we sang the "Wheels on the Bus" song.

9/10 SCIENCE with Mrs Jackson

Year 9/10 used atomic model kits to create models of ionic compounds in science yesterday.
