Email: ungarie-c.school@det.nsw.edu.au

Web: www.ungarie-c.schools.nsw.edu.au

It's getting to the time of the year where we begin organising 2017. On Wednesday November 30th we will hold our school captain speeches. Ungarie Central School captains are expected to set the standard in terms of presentation, language and behaviour. They must participate in formal school ceremonies (e.g. Anzac Day), be approachable with other students and be involved in a range of school activities. Those students in Years 5 and 11 who feel they possess the qualities of an exemplary leader are invited to nominate for the role of 2017 school captain. The speeches will be held after the morning assembly.

Next week is the beginning of the K-6 two-week Intensive Swimming Program. The School Swimming and Water Safety Program is a learn to swim program that develops water confidence and provides students with basic skills in water safety and survival. Students have been grouped according to their needs, from beginners to more advanced swimmers. Please remember to send your child's swimmers, swim shirt and a towel each day.

Next week our Year 10 students, supervised by Mr Dodhy, will be joining students from Condobolin HS, Lake Cargelligo CS and Tullibigeal CS on an excursion to Lake Burrendong Sport and Rec Centre for the Year 11 Crossroads and Induction Camp. This is a chance for students to meet their teachers and classmates for 2017 and complete the mandatory Crossroads program. Crossroads is designed to help senior students address issues of health, safety and wellbeing at a time when they face significant changes and challenges in their lives. I'm sure they will have an enjoyable week facing new challenges, such as the ropes course below!

The Ungarie Central School community would like to extend our sincerest sympathy to the Quarman family on the passing of Arthur. Trent, Mikell and Leslie are in our thoughts at this sad time.

Until next week,
Terrie Payne
Relieving Principal

Education
Public Schools

Canteen Roster:

Fri 18th Nov Emma McRae & Karen Rossiter
Mon 21st Nov Sheree Birks & Tegan Bussenschutt
Fri 25th Nov Veronica Gerhard

Upcoming Events:

Fri 18th Nov Whole School Assembly 2pm
Mon 21st Nov Central Schools Cricket vs
Coleambally @ Barellan
Wk 7 21st-25th Nov Yr 10 LAP Crossroads
Wk 7 & 8 Intensive Swimming
Tue 6th Dec Presentation Night
Fri 9th Dec Yr 6 Graduation & Disco
Thu 15th Dec Carols in the Park
Fri 16th Dec Last Day Term

Birthday Wishes to:

Lara Bryant 18th Nov
Reuben West 20th Nov
Noah Bryant 24th Nov

Primary News

Kindergarten: Tyler C, Maicey, Eva and Evie.

Yr 2/3/4: Lara, Dylan, Adelaide, Madison, Lachie, Mitchell, Lewis, Alfred, Deakin, Gavin, Patrick and Harry.

Yr 5/6: Alex B, Hugh, Jordyn, Jack, Tess, Jye, Ella M, Leslie, Abby and Georgia.

Intensive Swimming will begin next week and permission notes must be in by Friday. Remember that students will need a hat, sunscreen, shirt, drink bottle and towel. Make sure everything is clearly labelled so we can return lost property.

School Captains Speeches

On Wednesday in Week 8, Year 5 students who wish to try out for Primary School Captain will need to deliver their speech. Start preparing!!

Assembly Tomorrow

Tomorrow we will be having our last School Assembly. There will be some class items, Habit of Mind Awards and Home Reader Awards. Yr 2/3/4 would particularly like to invite parents to see their incredible musical abilities on the bucket drums!

Next Tuesday, 22nd of November, will be our final Kinder Transition day for 2016. Intensive Swimming will be on that day however the preschoolers will not be going to the pool. They will remain at school with Mrs Parkinson.

This Week's Focus:

POSITIVE BEHAVIOUR FOR LEARNING @ UCS

Yr 7/8

Students should be working on their debate speeches, as well as the Assessment Task which is due Friday 18th November. On top of this, their Yearly Exam is also Friday 18th. Students need to study persuasive techniques, roots and vocabulary and terms from our mystery unit.

It is a busy couple of weeks- no time for television!

Yr 9/10

Assessment task: 'Bran Nue Dae' due Friday week 7. Students should be working on this at home - especially Yr 10 who will be at Crossroads wk 7!

Yr 9/10 English exam -Friday 18th November. Students need to study the themes in 'The Club'. and learn quotes for their essay and revise visual and film techniques.
NO telly for you guys either!

Reminder....

UCS uniform orders need to be in tomorrow,
Friday 18th Nov.

UCS YUM

(Yr 9/10 Commerce class)

will be selling

FRESH GARDEN PRODUCE
next Thursday 24th Nov

For sale

UNSW ASPIRE YR 9 TASTER DAY IN DUBBO

STUDENT	BEST EDUCATIONAL EXPERIENCE	BEST SOCIAL EXPERIENCE
Chloe Worley	Learning about AFTRS (Australian Film, Television and Radio School). Some of us got to film using the camera and some acted out a scene in our own movie.	Meeting new people. I made a new friend from Tullibigeal and we were very social during the day.
Damian Batty	The Engineering activity was really fun and hands on. They taught us the basics of using solar power on cars.	Catching up with friends that I'd met on other ASPIRE trips and making new friends.
Jackson Benness	I liked the Engineering activity. It was about the solar car the university built and we got to build our own scaled solar cars and race them.	I made some new friends and the first day getting up there was a lot of fun.
Kayla Bradley	The art activity was the best. I got really involved in it.	I made some new friends at lunch time.
Seth McCubbin	I like the arts and design activity the best as I got to be really involved in something that I love.	The social part of the day was good. I meet 4 new people
Jack Wason	I enjoyed learning how 'Eve' the solar car the university had made worked.	Going bowling with the other students was fun.
Colby Crofts	The business workshop was the best as I learnt a lot of ways on how to become a successful businessman.	The bowling was good because we got a chance to chat with the other people there.
Daniel Potter	I like the engineering session because we got to make solar cars and decorate them.	I was good to see my friend from the last ASPIRE trip I'd been on.
Jared Robb	Engineering was good because we got to design our own solar powered cars. The people studying Engineering also explained what they do at Uni such as working in a team to build a solar powered car.	Going bowling was good because it gave us something to talk about to the other students we were meeting.

Filming the movie scene during the AFTRS workshop. Jared Robb is the 'actor' in the centre of the photo in a blue jacket.

T20 CRICKET

On Friday 28th October Mr Cattle and Jason took a group of cricketers into McAlister Oval in West Wyalong for the annual T20 Big Blast cricket day. These days are about participation and having fun in a shortened format of the game of cricket.

There were 10 teams for the Years 3/4 division, and 12 teams in the Years 5/6 division!! Ungarie had 1 team in each division with another 5 players making up a combined side with some WW Public students.

All sides played 4 games each throughout the day, with some excellent skills being on display. Our students had a great time, and their behaviour and sportsmanship was exemplary.

Above: 5/6 team: Jack Crofts, Jye Hoskinson, Ashton Ross, Hugh Williams, Ella Payne, Abby Wason, Tess Henley.

Above right: Combined team: Lewis Henley, Madi Cooper, Max Harland, Noah Bryant, Zac Hanrahan, Sammy Rutledge, Hayley Wallace, Harry Roscarel.

Left: Year 3/4 team: Alfred McCubbin, Madi Vinecombe, Kate Jackson, Lara Bryant, Deakin Ross, Reuben West, Patrick McClintock, Ethan Robb, Gavin Ward.

YEAR 12 BIOLOGY

We completed an investigation to see how the concentration of milk affects how quickly junket will clot the milk. The 100% concentrated milk curdled really quickly to the point where we could hold the milk upside down over each other's head without it spilling. Overall the experiment was fun, but extremely disgusting. By Emily Bussenschutt and Vanessa Robb (right)

In the experiment to the left, we are trying to increase the pH of water by blowing into it.

YEAR 2/3/4 SCIENCE

Year 2/3/4 have been investigating the effects of nature on soil erosion. In this experiment they made solid mud balls and shook them in water for 2, 4 and 6 minutes to discover the difference time makes to the amount of erosion. Students loved this muddy practical lesson.

Right: Patrick McClintock, Lara Bryant, Ethan Robb, Zoe McRae, Lachie Ward, Deakin Ross, Rachel Ridley, Noah Bryant.

Below left back: Patrick McClintock, Harry Roscarel, Lara Bryant

MORE FROM THE YEAR 5/6 CANBERRA EXCURSION

At the National Art Gallery there was a gorgeous glass sculpture. The sculpture used smashed glass that was half melted together, it was in the shape of a half tunnel turned in on itself. It was kind of mesmerising. The creator of the sculpture was actually one of the exhibition organisers at the gallery. By Abby Wason

On Wednesday we went to the Australian War Memorial, it was really fun. We got to look down stairs and when we went upstairs we got to lay a wreath on an unknown soldier's grave that represents all soldiers. Then we got to meet a veteran. He told us what it was like in the war. We got to buy things in the store. By Jett Brew

Centre: Tess Henley, Ella McRae, Ella Payne and Hayley Wallace. Jack Crofts, Darcy Langham, Tess Henley.

At the National Museum of Australia, we split into two groups so the people that weren't feeling well went into the B group and the people who were feeling good went into the A group. The B group got to see the old windmill, the largest piece of gold found in Australia and Audrey got to dress up as a jockey. The B group also got to have a little sleep at the end of a quiet corridor it was very good for the B group because we were all sick and tired. The A group got the experience of going to K-zone and they got to build a robot. They also got to interact with the robots and played a game of help build the harbour bridge with the robots and they also got to see the massive diggers bucket. It was a very fun day thank you Mrs James, Mrs Payne and Mr Cattle. By Ella Payne

Meal time at the accommodation.

MORE FROM THE YEAR 5/6 CANBERRA EXCURSION

On the Canberra school excursion, Wednesday afternoon our group went to the Royal Australian Mint. It was cool. We saw where money got made, dyed, squashed and packed up into packages all ready to get sent to banks around Australia. We saw old money sketches of coins that got rejected and that worked and had been printed into a coin. Some were very rare because they only printed 10 of that coin. At the end we got to make our own money. You put 3 dollars in a machine and a new shiny special coin come out. I would like to go back again and see more. By Tess Henley

Laser tag was so much fun because the course was like a maze you had to run around. At laser tag I had fun shooting the other team. The red team was Jack, Jye, Alex O and Leslie, Green team was Jett, Alex B, Regan and Audrey, Blue team was Abby, Ella M, Tess, Mr Cattle and Jason. Red won both games, blue came second at both games and green came third at both games. Alex O was the best all up. Everyone had a fun time. By Jye Hoskinson

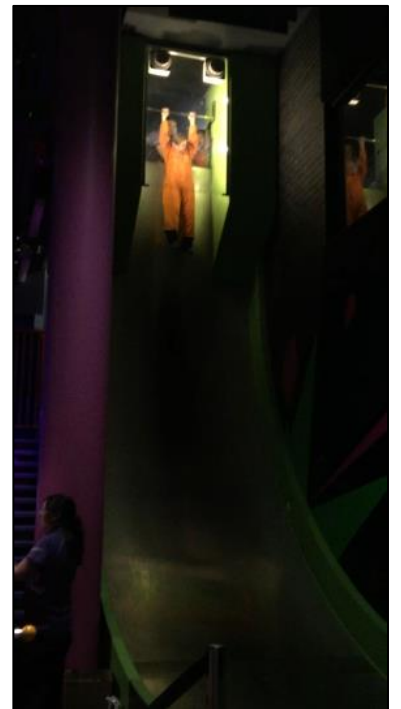

On the last day of the excursion we went to Questacon. It was really cool especially the Free Fall Slide. When you let go of the bar on the slide you felt like you were falling off a cliff, your tummy went into your mouth. We saw lots of other stuff like how earthquakes happen, what evaporation is and watched lighting strikes happen inside a big cage! As we were leaving we met a robot. His name was ROBO Q. You could ask him lots of questions. Georgia asked him when he was born. He said "I was first activated in 2013." Before we left we went to the gift shop then we got onto the bus ready for a long drive home. By Ella McRae
